

Because of extensive construction and repair activities now taking place in both the Washington St. and the Senate Ave. garages, parking availability in both garages has changed:

- Until further notice, there will be a limited number of parking spaces available for “sign-in” parking in both garages. “Sign-in” parking is parking made available to persons coming to Government Center facilities for a meeting, and must be pre-arranged by the agency hosting the meeting.**
- Until further notice, public parking in both facilities is restricted: There is no public parking in either the Washington Street or Senate Avenue garage.**
